Regular Time Lords 2: Allons-y! Transform and Roll Out!

\*\*Hello everyone! Recently I put up a poll asking what other category should I put in with Doctor Who and Regular Show, but only one person voted on it and the category is: Transformers, I thought why not? SO Here is Regular Time Lords 2: Allons-y! Transform and Roll Out! I don't own Doctor Who, Regular Show or Transformers, if I did, this would be a movie! ENJOY! \*\*

"Rigby!" Mordecai shouted from their room.

"Dude, don't raise your voice!" Rigby said as he was entering their room.

"Where's that sonic device?" Mordecai asked.

"What sonic device?" Rigby questioned.

"You know? That thing the Doctor gave us," Mordecai said.

"The Doctor?" Rigby wondered.

Mordecai sighed angrily. The Doctor was their friend, who helped them saved their town from Daleks, but he left so soon, and he gave them a sonic device to call them on. That was a year ago.

Suddenly, Rigby realised what Mordecai was talking about.

"Oh, that thing! I haven't seen it for two months!" Rigby said.

"What?!" Mordecai shouted. "When did you last use it?"

Rigby shrugged. "No idea."

"\_Real \_helpful," Mordecai said sarcastically.

"Maybe it was when The Doctor first gave it to us," Rigby said.

Mordecai sighed angrily again, then suddenlyâ€|

"Dude, found it!" Mordecai said happily.

Untilâ€| it started flashing.

"That doesn't look good," Mordecai whispered with caution.

Meanwhile, a spaceship, called the TARDIS, was floating in the depths of space. The Doctor was just about to travel to a kingdom with an icy problem.

"Right, coordinates, set toâ€|" The Doctor said just before his monitor started beeping.

"Ohhhâ€| Mordecai and Rigby want to see me. Delaying icy kingdom till later. Setting to the Park!" The Doctor exclaimed as he was pressing a button "Allons-y!"

On Earth, in a base far away from The Park: the Autobot leader, Optimus Prime, was watching the sunset. The Decepticons have been defeated once again.

Then Bumblebee came out and tried saying something but ended up using his radio to speak.

>"Houston, we have a problem," Bumblebee said from the NASA landing.<p>

"What problem is that, Bumblebee?" Optimus asked.

"Signal relays going haywire" Bumblebee, who was using different radio channels, replied.

"Hmmâ€| I'll check it out, but also we are going to need some help," Optimus said.

"Why is that?" Bumblebee asked.

"Well, Bumblebee, it might be The Decepticons," Optimus replied.

\*\*So that's the end of the first chapter, I know The Doctor had a short role in this chapter, he's going to be involved in more chapters! I guarantee it! Something is referenced in this chapter, see if you can the title and the kingdom's name!
